STEP 6: Enter new password and confirm it. Your new password should be at least 8 characters, and should be a combination of letters and numbers. Example: citizens1

STEP 7: An authentication image (picture) will appear. You will need to enter an authentication pass phrase which you will create. (This image will appear every time you login from your computer.) You will also be asked for your email address as well as three security questions. These will be used in case you login from another computer that is not your primary one.

STEP 8: Accept the Online Agreement
